

# A NEW CONCEPT IN FLOORING

Interface Hospitality designs and manufactures  
unique flooring.

We challenge you to think differently,  
to embrace a smarter way, to move away  
from tradition.

Open your mind to a whole new  
concept - modular flooring.

We offer you unlimited design  
possibilities, and the true creative freedom  
to realise your design vision.

Products: Urban Retreat 101 (colour Sage/Moss), Urban Retreat 102 (colour Sage), Urban Retreat 103 (colour Moss).

WANT TO  
TURN THE  
ORDINARY  
INTO  
EXTRA-  
ORDINARY?  
BE OUR  
GUEST.

Products: Net Effect 701 (colours North Sea & Black Sea), Net Effect 703 (colours North Sea & Black Sea), Monochrome (colours Garbana & Very Berry).

# CREATE A STUNNING FIRST IMPRESSION

Create distinct areas – highlight the form of an architectural feature, or reveal the subtlest of surface details.

Interface Hospitality gives you complete creative control over your modular flooring – colour, design and texture.

This flexibility comes into its own when you create statement areas within a space. Flooring becomes a completely adaptable part of your palette of interior finishes.

And you can create rugs too – mix and match to form bespoke designs that are totally unique.

# WE'RE WITH YOU ALL THE WAY

The vast combination of colours, designs and textures can be overwhelming at first. Relax. Our in-house concept designers are on hand to help you create the unique personality of each space, and enhance the guest experience.

Using the latest CAD technology, they'll work with you to create and visualise your ideal space.

Products: Cap & Blazer (colour Durham), Monochrome (colours Putty & Very Berry).

Products: Bisanzio (colour: Suidas), Monochrome (colour: Pacific).

NEED A  
DESIGN THAT  
CREATES THE  
PERFECT  
EXPERIENCE?  
BE OUR  
GUEST.

# A SPACE TO FEEL AT EASE

Friends reminiscing in the bar. Travellers recharging in the lounge. Delegates relaxing after a hard day's work.

Modular flooring helps identify spaces within spaces. People are connected by the different purposes of a flexible interior.

Pleasure or business, our flooring truly completes the effect – relaxing, rejuvenating, inspiring, or simply creating movement. It has the ability to transform the way people feel and interact in a space.

Products: Straightforward (colour: Spearmint), Cap & Elaze (colour: Winchester), Monochrome (colour: Pacific).

Products: Urban Retreat 201 (Colour Granite), Urban Retreat 202 (Colour Granite), Urban Retreat 203 (Colour Granite)

Products: Transformation (colour Steppe), Urban Retreat 102 (colour Charcoal).

# A SENSE OF PERFECT CALM

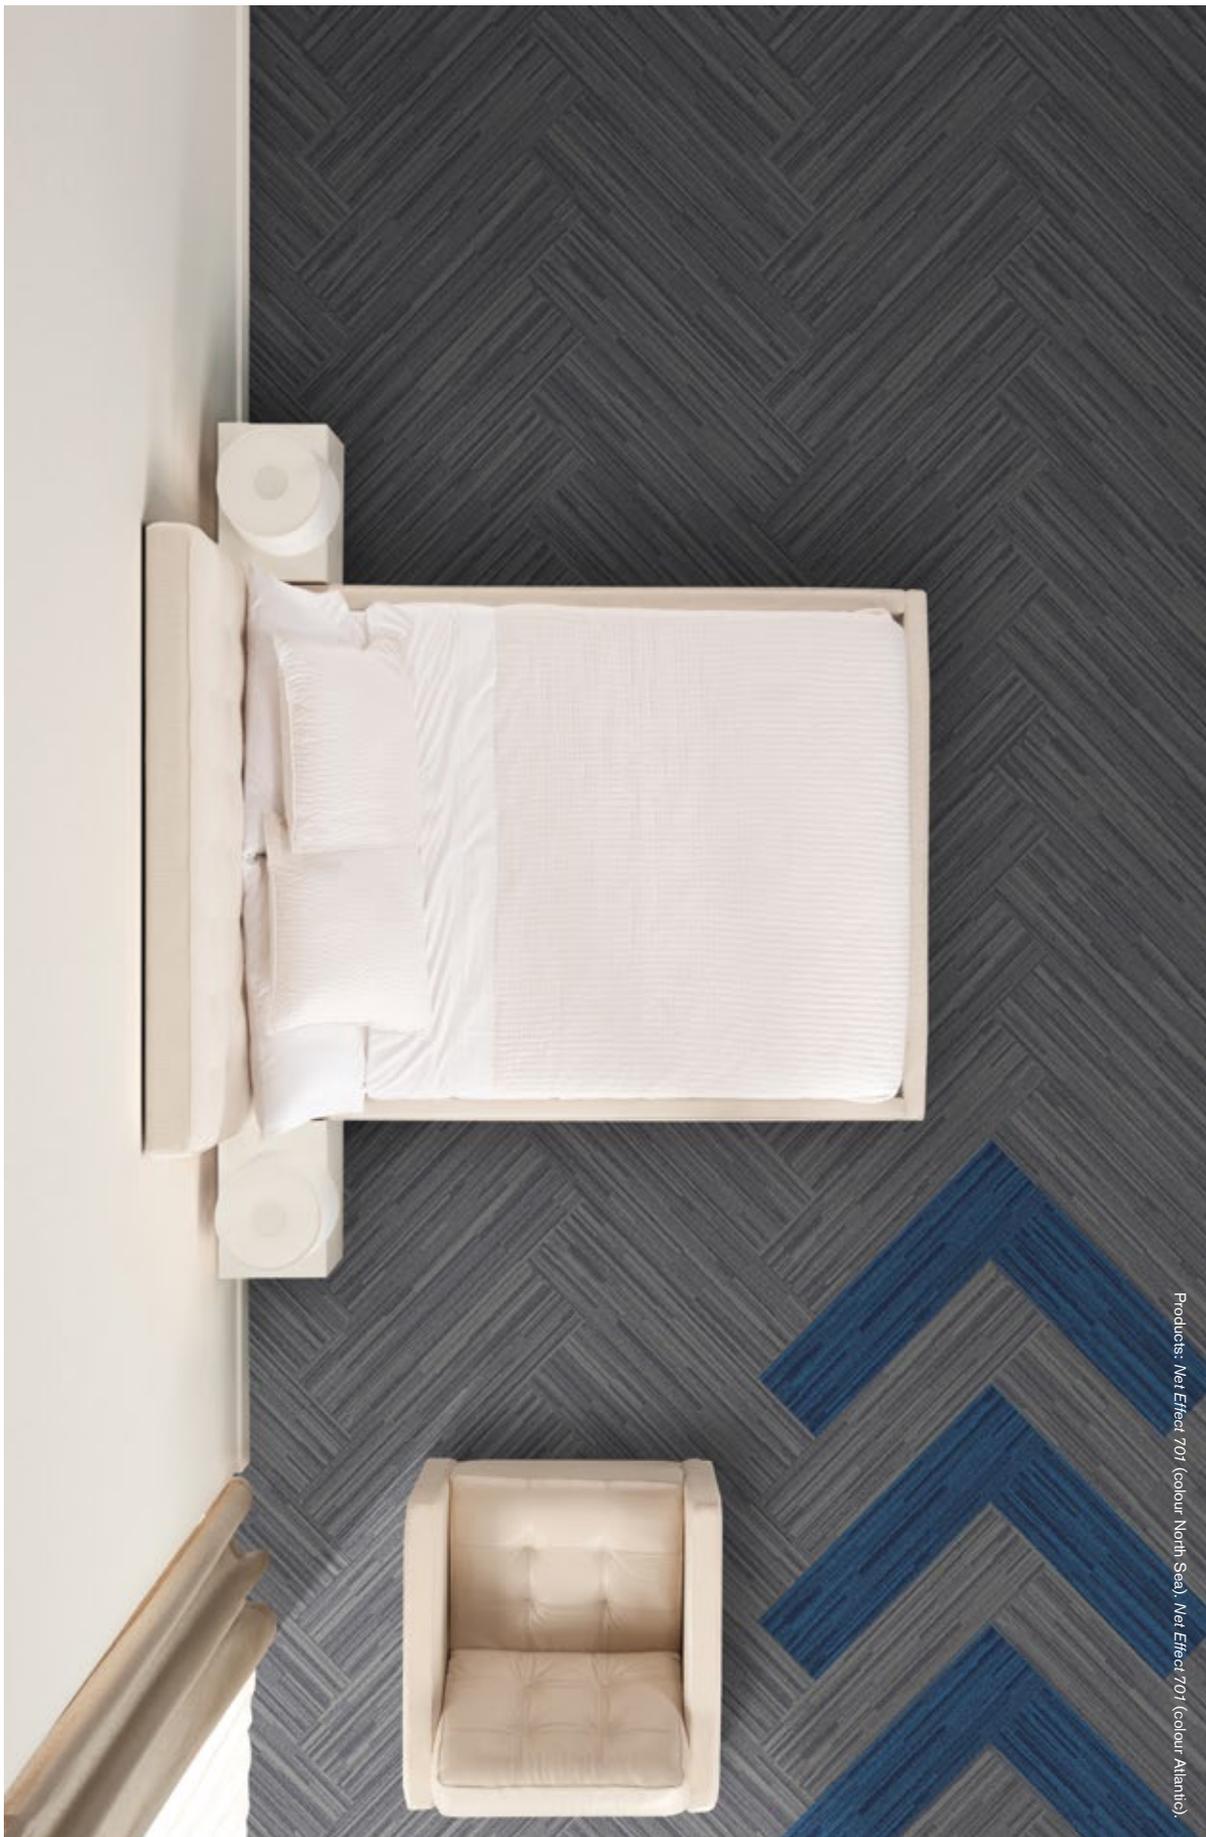

Footsteps in the corridor. A loud conversation. Acoustics are a subtle part of any room's ambience. And they're affected by the choice of flooring.

Interface Hospitality modular carpet helps solve the problem of poor acoustics.

It's comfortable too: our flooring acts as a valuable shock absorber under-foot. You can go even further, by specifying our Interlay product under your new modular surface. The result: floors that feel softer, and reduce noise even further.

Products: Net Effect 701 (colour Caspian), Net Effect 702 (colour Caspian), Net Effect 703 (colour Caspian).

Products: Net Effect 701 (colour North Sea), Net Effect 701 (colour Atlantic).

# MAKE IT A HEALTHY SPACE

Volatile organic compounds (VOCs) are present in many types of flooring. They can produce irritation – often to the eyes, nose and throat. At high concentrations, they can be toxic.

We've worked to dramatically reduce the amount of VOCs in our products. However, some installation adhesives still contain a significant amount.

That's why we introduced TacTiles™ – our glue-free installation system. Compared to glue installation, it reduces the environmental impact. And with no unpleasant odours, your guests can enjoy using the space straight away.

Products: Lima (colour La Molina), Scribble (colour Jet).

WANT  
A FLOOR  
THAT'S  
PRACTICAL  
IN EVERY  
WAY?  
BE OUR  
GUEST.

Product: Urban Retreat 501 (colours: Gold, Grass, Charcoal, Ash & Stone)

# CUT DOWN ON WASTE, CUT DOWN ON COSTS

Cuts and waste are an inevitable part of installing a broadloom carpet, which, in a typical room, can create between 10–15% waste.

Choose Interface Hospitality and reduce that to 3–4% – or even less with our random or non-directional design ranges.

It's easier to handle and fit too. So it saves time and money – thanks, in part, to our Renovisions® furniture lift system, which allows fitting without emptying the room, reducing disruption.

Products: Urban Retreat 101 (colour Flax/Grass), Urban Retreat 102 (colour Flax), Urban Retreat 103 (colour Grass)

# KEEP IT FRESH, KEEP IT CLEAN

You've designed a pristine space; our modular flooring helps you keep it that way.

Our products are made with solution-dyed nylon, an essential ingredient to maintain colour-fastness and appearance over time, even when harsh cleaning products are used. And although most spills can be removed by normal cleaning, some can't. If that's the case, simply remove the tile for deeper cleaning or replacement.

What other flooring lets you create a fresh look whenever you want? Add colours and change the design – without starting again. All through a smart, selective – and economical – refresh of each area.

Products: Strike a Light (colour Bright Light), Flare (colour Current).

Products: Urban Retreat 101 (colour: Sage), Urban Retreat 201 (colour: Sage), Urban Retreat 501 (colour: Sage).

WANT  
TO CREATE  
A MORE  
SUSTAINABLE  
SPACE?  
BE OUR  
GUEST.

## Sustainability

### Judge us by our actions

Our Mission Zero goal defines everything we do globally. It started in 1994, when our founder Ray Anderson presented a challenge to employees: by 2020, eliminate any negative impact the company might have on the environment.

So we looked at the entire lifecycle of our products, starting with raw materials, suppliers and processes. Then we traced a path to the end of the carpet's useful life, and beyond. It's changed everything we do, without ever compromising on performance and design.

We're ready to help you reduce the environmental and social impacts of an interior. Here's how.

#### Recycled content

The nylon yarn we use ensures our products wear well, are easy to maintain, and can be made into a multitude of textures and colours. But the yarn is still the single largest contributor to the environmental impact of a modular carpet.

That's why over 365 of our colours are now made from 100% recycled nylon yarn. It is also why 49% of our raw materials globally are recycled or bio-based.

### Services to minimise your footprint

#### Carbon neutral

We consider every process and material. We also use 100% renewable electricity in our European manufacturing plants. However, our products still have an impact.

That's why we have our Cool Carpet® carbon offset service, available on request.

Cool Carpet® cancels every gram of greenhouse gas emissions associated with a product through its entire lifecycle – from manufacture and installation, through to end of life.

Globally, we offset 25 million m<sup>2</sup> of Cool Carpet® in 2012.

#### A long life. And a useful afterlife.

We offer advice on product choice and maintenance to extend the life of our products.

And, for a small cost, our ReEntry® programme will take back used tiles, so they don't end up in landfill. Instead, we will find a new purpose for them or recycle them into new modular flooring. By doing this, in 2012 we diverted over 6,700 tonnes of carpet from landfill sites around the world.

#### Immerse your business in sustainability

We've been learning about sustainability for decades – and we're happy to share our knowledge, by offering intensive workshops to our customers.

These sessions open up brand new perspectives, taking in operations, marketing, logistics, sales, culture and management.

## The fine detail
